

FORMRITE™

A Huber Engineered Woods Product

Non-Structural
Concrete-Forming Board

FORMRITE™ concrete-forming board is an engineered wood alternative to solid-sawn lumber used in forming applications including sidewalks, slab-on-grade, curbing and other non-structural concrete products.

- *Durable and reusable for multiple pours
Saves you time and money*
- *Manufactured using advanced resin and
press technologies for superior moisture
resistance*
- *Solid and straight*
- *Won't warp, cup or delaminate*

SPECIFICATIONS

3-1/2" to 16" widths available

12' to 24' lengths available

1", 1 1/8", 1 1/4" thickness standard
